ADDENDUM

Variance Application

527 and 529 New Bern Avenue, 0 Edenton St. and a portion of 531 New Bern Avenue
J. Russell Allen and W. Craig Allen, TR
Allen Ventures, LLC and Tephra Development LLC

Applicant seeks a variance of UDO Section 3.4.4.F for a site proposed to be a recombination of 4 lots including 0 East Edenton Street, and 527 and 529 New Bern Avenue and part of 531 New Bern Avenue as shown on attached Exhibit A.

A variance is requested from the requirement that a building in a district with a DE Frontage include offsets of at least 10 feet in length and depth at least every 40 feet.

Because of the small lot size and proposed use (a 5-unit townhouse, condominium or apartment), a hardship exists for the property owners in complying with the DE Frontage requirements. The Applicant has a practical difficulty in creating aesthetically pleasing buildings with ample functionality if required to comply with the 10' offsets. According to the UDO, the purpose of the DE Frontage is to preserve the residential character of the area and create a neighborhood-scale transition between residential and commercial. The applicant believes it can better achieve the objective of the frontage with multiple offsets which occur more regularly than every 40 feet, but which are not 10 feet in length and width. This project proposes a 5 unit residential cluster in which the frontage-required direct pedestrian access from the public sidewalk is preserved in smaller scale offsets. These smaller offsets provide residential character and visual interest while being more suited to the small lot and cluster of units. The project as a whole is residential in nature and will be designed to complement the surrounding New Bern/Edenton NCOD. All other aspects of the DE Frontage will be adhered to, including height limits and rear lot surface parking.
